

## Community Health and Safety Survey-Indoor Areas

- The environment where EI services are provided is safe from chemicals, contaminants, toxic materials, and other hazards.
- The environment is free of potential fire, construction, and other structural hazards.
- Public restrooms are available/accessible, clean, and adequately supplied.
- Hallways and/or exits are not obstructed and are free from clutter.
- Stairs are lighted.
- Stairs, walkways, porches, and ramps are free of ice, snow, and other hazards, and have railings or other barriers to prevent children from falling.
- Pets on premises do not pose a potential threat to children.
- Areas where EI children are receiving services have entrances and exits that prevent children from wandering out of the immediate area.
- There are no other physical conditions that are potentially hazardous to children during the delivery of services.
- Evacuation procedures and routes are prominently posted.
- Providers are aware of the current emergency evacuation plan and evacuation routes in the community-based setting, location of telephones on premises and up-to-date emergency telephone numbers.
- Public swimming pools used are only those subject to the oversight of Chapter 1, Subpart 6-1 of NY Sanitary Code and do not pose a health risk to children.

Comments:

---

---

I \_\_\_\_\_ (parent/guardian), was present and participated in the assessment of the Community location where my child will receive EI services, along with my child's service provider on \_\_\_\_\_ (date of completed survey) and I agree that my child receive services at this location.
