

Community Health and Safety Survey-Outdoor Areas

- Site is free of obstacles that could cause injuries such as overhanging tree branches, wires, tree stumps, and/or roots, rocks, bricks/concrete.
- Play equipment is clean and in good condition (no broken pieces, sharp edges, choking hazards, splinters, cracks, rusted areas, screws, etc.).
- Walkways should be clear of trash and clutter to prevent tripping.
- Play areas are clear of debris and small or potentially harmful objects.
- Play equipment is developmentally appropriate.
- Play equipment is securely anchored.
- There is adequate protective surfacing under/around playground equipment to help absorb the shock if a child falls.
- There are no openings in equipment that can trap a child's head or neck, such as openings in guardrails or ladders.
- Elevated surfaces such as platforms and ramps have guardrails to prevent falls.
- Slides have large decks and hand rails at the top.
- Merry-go-rounds have solid, flat riding surfaces and handholds.
- Sandboxes are clean and void of organic, toxic, or harmful material.
- Public restrooms are available/accessible, clean, and are adequately supplied.
- Public swimming pools used are only those subject to the oversight of Chapter 1, Subpart 6-1 of NY Sanitary Code and do not pose a health risk to children.
- There are no other physical conditions that are potentially hazardous to children during the delivery of services.

Comments:

I _____ (parent/guardian), was present and participated in the assessment of the Community location where my child will receive EI services, along with my child's service provider on _____ (date of completed survey) and I agree that my child receive services at this location.
